Description

The DLED-SR8 is a 8" LED cylinder luminaire available in a ceiling, wall mount, or pendant style. The DLED-SR series features high efficacy chip-on-board LED modules paired with Triac 120V or 0-10V dimming drivers. Utilizing a precision-designed optical diffuser, the SR8 delivers high lumen output while maintaining a soft, well-dispersed spread ideal for today's interior spaces.

Features

- Durable aluminum extrusion heat sink intergrated with COB(chip on board).
- Inner reflector provide more light and beam distribution.
- Anodized haze clear, gold, champagne, pewter color finished full reflectors.
- Also available anodized reflectors with black.
- Round seamless .060 thick spun aluminum, housing available in semi-matte white, black or silver finish.
- Aluminum extruded Heat sink designed to facilitate heat dissipation to reduce LED junction temperature for maintaining constant light output, color and life of solid state components.
- LED Driver features power factor >0.95, THD <20% and includes integral thermal protection to sense over temperature or internal failure.
- Driver mounts externally to the module, allowing future replacement, if needed.
- Consult with factory for optional 0~10V analog dimmable driver.
- Aluminum casted bracket secured to housing cross-bar by set screws.
